

MedEpay™ Solutions – improve the payment experience for patients and staff

Our platform simplifies the payments ecosystem

U.S. Bank is your partner for advanced capabilities that make payments both easy and secure. We can help you enhance the patient payment experience and drive positive financial results for your organization. Designed for the specific needs of healthcare, our solution helps medical systems and hospitals solve collection challenges with payment acceptance. You can rely on modern tools such as digital notifications and the ability to combine multiple balances or payments into a single transaction. And our solution protects your organization with the latest technology for data security and PCI DSS compliance with our standard P2PE validated deployment.

Why us? U.S. Bank is the trusted payment solution provider to more than 900 healthcare facilities. We offer unmatched healthcare experience and a dedicated team of specialists—and with over \$300 billion annually in transactions for 141 customers—you can count on our experience with processing payments.
